

## AquaFinesse™ Pool Water Care System

ONE minute. ONE time per week. ONE solution.

AquaFinesse™ is a genuine breakthrough in pool and spa water maintenance. It is a simple one-step system that takes only one minute, one time per week. By eliminating biofilm, slime and water mold – the root cause of many water problems - AquaFinesse™ proactively cleans and conditions your pool resulting in clear, clean, soft and safe water. You'll see the difference and you'll feel the difference.

This AquaFinesse™ user manual has been prepared as a step by step guide to enjoy clean, clear, healthy water. Your AquaFinesse™ retailer will be pleased to answer any questions regarding specific or unusual problems. Just bring in a sample of your water to your retailer for a complete analysis.

## ***Instructions for Use***

### **Start Up and Weekly Maintenance**

Read instructions carefully.

AquaFinesse™ must be used with an approved sanitizer of choice.

1. Ensure that the pool is vacuumed and the filter backwashed/rinsed/cleaned regularly
2. Balance your pool for Alkalinity, pH and Calcium Hardness.
3. Add your approved sanitizer to the pool per manufacturer's instructions. Maintain the approved level of sanitizer residual in your pool throughout your pool season.
4. Add AquaFinesse™ Pool tablets to the skimmer every week per the normal weekly dosage chart. A double dose of AquaFinesse™ is needed for the first 4 weeks after opening AND for the 4 weeks prior to closing your pool

Each tablet is sufficient for 1 week's normal treatment of 20,000 gallons (76,000 litres).

#### Normal Weekly Dosage Chart

Pool Volume	AquaFinesse™ Normal Weekly Dosage
20,000 gallons / 76,000 litres	1 tablet
40,000 gallons / 152,000 litres	2 tablets
60,000 gallons / 228,000 litres	3 tablets

#### Dosage Calculation Example:

For a pool of 20,000 gallons / 76,000 litres

Weeks after Opening	AquaFinesse™ Dosage
Weeks 1-4	Add 2 tablets to skimmer each week
Weeks 5, 6, 7...etc	Add 1 tablet to the skimmer each week
4 Weeks prior to Pool Closing / Shut Down	Add 2 tablets to skimmer each week

#### Green Pool Opening Dosage Calculation Example:

For a pool of 20,000 gallons / 76,000 litres

Weeks after Opening	AquaFinesse™ Dosage
Week 1	Add 4 tablets to skimmer (2 tablets first day, 2 tablets two days after)
Week 2-4	Add 2 tablets to skimmer each week
Weeks 5, 6, 7...etc	Add 1 tablet to the skimmer each week
For 4 Weeks prior to Pool Closing / Shut Down	Add 2 tablets to skimmer each week

## Filter Cleaning

Clean and backwash your filter as required using AquaFinesse™ Pool Filter Cleaner.

We recommend you clean your filter using AquaFinesse™ Pool Filter Cleaner after the first 4 weeks of AquaFinesse™ Pool Water Care use and then monthly during the season and right before closing your pool.

Refer to the bottle label for directions of use for the AquaFinesse™ Pool Filter Cleaner.

## What is your Pool's Volume?

Get your actual figure from your pool builder or check your water meter before and after filling as a close estimate.

*Estimating your Pool's Volume:*

Rectangle – Length x Width x Avg Depth x 7.5 = gallons of water

Circle – Diameter x Diameter x Avg Depth x 5.9 = gallons of water

Note: if sloping sides, multiply total gallons by 0.85

1 Gallon = 4.51 Litres

## Ideal Swimming Pool Water Conditions

VARIABLE	RECOMMENDED LEVEL
Cl <sub>2</sub> “free chlorine”	1-3ppm
Bromine	3-5ppm
Stabilizer (Cyanuric Acid)	30-50ppm
Total Alkalinity	80-150ppm
Hardness	150-280ppm
Total Dissolved Solids (TDS)	Less than 500ppm
pH	7.2 – 7.6
Chloramines or combined chlorine	Less than 0.1 ppm
Algae	None
Iron and Copper	Less than 0.1 ppm
Water Clarity	Clean & Clear

## Chemical Safety

1. Read and follow the directions on the container carefully.
2. Always add chemicals to the water, NEVER add the water to the chemicals
3. Do not mix chemicals together. Add chemicals one at a time. Rinse out the measuring cup and let it dry before the addition of the next chemical
4. Store chemicals in a cool dry place. Keep the container tightly closed when not in use.
5. Keep out of the reach of children.
6. Do not ingest. In case of contact or if chemical is swallowed, follow emergency advice on product label.
7. Do not smoke near chemicals.
8. If bottle or pail is empty, discard in trash or offer for recycling if available.
